

# Product list origin Entlebuch (Switzerland)

Botanica GmbH • Industrie Nord • 5643 Sins • Switzerland • www.botanica.ch • +41 41 757 00 00

The following list contains plants from Entlebuch. Entlebuch lies in Central Switzerland, between the cities of Bern and Luzern. Since 2001, this region has been a designated UNESCO Biosphere Reserve, and a Regional Conservation Area since 2008. The area is home to the largest, most numerous moorlands in Switzerland along with an exceptional variety of animal and plant life.

The following products can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some products are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our products. If you are looking for specific products for your formulation, we are looking forward to your contact.
