

## Topic list fresh

Botanica GmbH • Industrie Nord 14 • 5643 Sins • Switzerland • www.botanica.ch • +41 41 757 00 00

The following list contains fresh raw materials. These raw materials are not dried like many other raw materials, but freshly used.

Botanica processes the corresponding raw materials into extracts which are available in aqueous and ethanoic extractions - see extract finder. These extracts can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some raw materials are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our raw materials. If you are looking for specific extracts for your formulation, we are looking forward to your contact.
