

Product list: Distillates

The following list contains distillates

Botanica distinguishes between distillates and water distillates. Distillates are labeled with the INCI name "...extract", while water distillates are labeled with the INCI name "...water". The distillates and water distillates are obtained through steam distillation. They are clear, colorless liquids with a shelf life of 18 months.

The following products can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some products are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our products. If you are looking for specific products for your formulation, we are looking forward to your contact.
