

Product list: Milk

The following list contains milk

Milky products of animal origin are called milk, other products are called VeganMilk. Milk is a white, turbid mixture of proteins, lactose and milk fat in water. VeganMilk is based, for example, on lecithin, an emulsifier that helps to mix insoluble liquids such as water and oil. Milky mixtures reflect and scatter light in all directions. Our eye perceives these reflections as white.

The following products can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some products are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our products. If you are looking for specific products for your formulation, we are looking forward to your contact.

Animal origin - in Glycerine/Water

Article no.	English	Deutsch	INCI	Bio
P-00023225	Almond Milk	Mandel Milch	Glycerin, Aqua, Sine Adipe Lac, Prunus Amygdalus Dulcis Seed Extract	
P-00023874	Coconut Milk	Kokos Milch	Glycerin, Aqua, Sine Adipe Lac, Cocos Nucifera Fruit Extract
